Prior Steps Taken:

Complaint Details: Our county assessor needs to be audited. I have friends who work in the courthouse that know about her mishandling of the county credit cards. She is using them to pay for hotel rooms, restaurants, and a baseball camp. She paid it back and was told never to do that again. The latest bill had a plane flight to Texas with no receipts to show. Where is the certification for the training? No one from our county has ever traveled to Texas for training. Who holds a training seminar on a weekend? She has her own fund so the one in charge isn't going to push the matter. She needs to be audited. She loves posting all of her outings on Facebook. Check out her girls' weekend in Texas she posted.

Results of Entity Actions: She needs to be removed from office. She writes bad checks all over town and likes to let everyone know that her bad checks are not her fault. She is a county elected official. I'm sorry but she is a bad representation of our county.
