

24/7 Vision

Fully-Managed

Web SCADA for Fixed Solutions

24/7 Vision - Gas Monitoring SCADA

Provides remote gas monitoring solutions for a wide-range of industries using fully-managed web SCADA. 24/7 Vision easily incorporates with any Modbus or 4-20 mA systems.

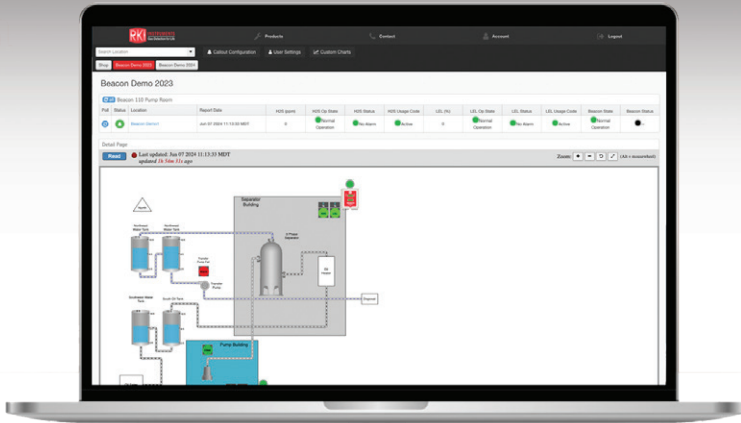

Open system design to interface with existing or new fixed gas detection systems as well as tank levels, flow controls, temperatures, and many other sensor types.

World Leader In Gas Detection & Sensor Technology

Fully-Managed Turnkey Remote Monitoring

Web SCADA

Real-time customizable data. View historical data, trending data, alarms, and more.

Mobile Access

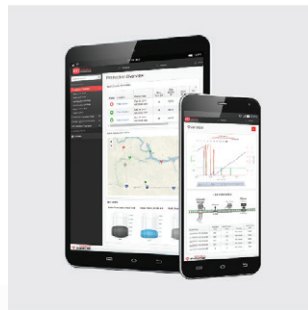

24/7 Vision Live Mobile App is available on Android and iOS. The app allows users to monitor their production and operational data anytime, anywhere.

Voice, SMS, and/or Email Alarm Notifications

24/7 Vision's alarm callout system can be configured to match multiple alarming conditions and send callouts to operators via Voice, SMS, and/or Email messages to indicate an alarm has been reached at a remote location.

Export Controls

+ Add Column Heading								
	Column Type	Order	Display As	Decimal Places	Measurement	Default Unit	Aggregate	
<input checked="" type="checkbox"/> Edit	Constant Text Value	0	alias					<input type="button" value="Remove"/>
<input checked="" type="checkbox"/> Edit	Date Column	1	date					<input type="button" value="Remove"/>
<input checked="" type="checkbox"/> Edit	Mapped Column	2	hours	2			None	<input type="button" value="Remove"/>
<input checked="" type="checkbox"/> Edit	Mapped Column	3	gas	2			None	<input type="button" value="Remove"/>

24/7 Vision exports data to conform to any data formats. Automatically transfer data to Prodman, FieldView, ProdView, PVR, Avocet, Excel and more. With our fully-managed service, 24/7 Vision works with you to create the exports you need.

Redundant Servers & Multi-Layer Backups

- Safe, secure, and reliable servers managed by a team of experts
- Redundant data centers to keep your data safe
- Multi-layer backups to ensure your data is never lost
- Servers located in CICA 5970 Type B Rated Data Centers
- Secured connection (APN, VPN, HTTPS) to protect your data
- SAS70 Type II Certified

Fixed Systems Telemetry Hardware & Telemetry Subscription

Hardware		Subscriptions	
Part #	Description	Part #	Description
85-VCA8	1-4 sensors, 4-20 mA output	85-S-GOLD	Telemetry subscription: 1-8 sensors with 4-20 mA output, or 1-12 sensors with Modbus output, per year
	5-8 sensors, 4-20 mA output		
85-VCA16	8-16 sensors, 4-20 mA output	85-S-GOLD-PLUS	Telemetry subscription: 1-32 sensors with 4-20 mA output, or 1-32 sensors with Modbus output, per year
85-VCA32	16-32 sensors, 4-20 mA output	85-S-PLATINUM	Telemetry subscription: 1-100 sensors with Modbus output, per year
85-VCM	1-12 sensors, Modbus output (2 registries per sensor)	85-S-GOLD	Telemetry subscription: 1-8 sensors with 4-20 mA output, or 1-12 sensors with Modbus output, per year
	12-32 sensors, Modbus output (2 registries per sensor)	85-S-GOLD-PLUS	Telemetry subscription: 1-32 sensors with 4-20 mA output, or 1-32 sensors with Modbus output, per year
	32-64 sensors, Modbus output (2 registries per sensor)	85-S-PLATINUM	Telemetry subscription: 1-100 sensors with Modbus output, per year
	64-100 sensors, Modbus output (2 registries per sensor)
