**M2A
Transmitter**

Gas Detection For Life

Gas Monitoring Solutions for Grow Operations and Extraction Facilities

Beacon Controllers

- 1-8 Channel fixed systems controller
- Digital readout
- Weather proof NEMA 4X enclosure
- Audible alarm
- Up to 3 configurable alarm relays per channel
- Optional strobe & battery backup

Direct Connect Sensor

- Available gases:
 - LEL, O₂, and CO₂
- Remote sensor capability
- Explosion proof available
- No transmitter required
- Connects directly to most RKI controllers
- Stainless steel enclosure available

S2 Sensor

- Available gases:
 - LEL, H₂S, CO, PPM H₂, and CO₂
- Infrared sensor for combustibles and CO₂
- Patented water repellent sensor coating
- 4-20 mA Output

M2A Transmitter

- Operates with or without a controller
- Direct digital readout with OLED display
- Available gases:
 - LEL, O₂, CO₂
- Infrared sensor for combustibles and CO₂

Controller

S2

M2A Transmitter

Remote Mount Sensor with Cal Cup

RKI's diffusion style remote mount detectors allow for easy calibrations in difficult access areas.

Alarm Relays Activate Ventilation / Exhaust Systems
