TOP SNORKELING BEACHES

Playa Chileno and Santa Maria Bay are 2 of the most popular diving and snorkeling sites in Cabo San Lucas.

Thanks to its location, **Chileno Beach's** underwater visibility is perfect for observing the sea life below. The clarity and beauty of the water here is reminiscent of the beaches you would find in the Caribbean. Plenty of exotic fish such as angelfish and parrot fish can be spotted here. It is also home to tropical fish, moray eels, sea turtles, sea urchins, sea fans, sponges and starfish.

Santa Maria Bay is shaped like a horseshoe and is full of various tropical fish and marine life. Perfect for families wishing to swim and snorkel in a beautiful marine sanctuary.
