Raiders of the North Sea Plot Summary After leaving the pathfinder ultimate intrigue pdf torrent and following a mysterious sea monster, the group discovers a large island with buildings made from bones. Upon entering the island they are attacked by a Giant called Reog, who the group manage to beat with some difficulty. The group then heads out to explore the city and discover a Portal to another dimension, via which Reog had been attacking the island. The group quickly find the Portal and begin to enter the portal. The group soon find themselves in a vast underground realm populated with Reog and other giants and all of whom have taken humanoid form. As the group search for the bones that form the island the Reog begin to attack the group. The group manage to beat off one of the Reog and force it to flee from them. Following the incident with the Reog, the group discover a tunnel leading into a massive pyramid. Within the pyramid the group discover a teleportation sphere, to which the group ask for help to return to their world. The group are teleported to a large gathering of giants, who reveal that the bones on the island are from them, and that they are waiting for Reog to return and destroy them. The group manage to defeat the Reog and drive it out of the city and back to the portal. The group return to the portal and head back to their home world.
