AlternativeTo is a free service that helps you find better alternatives to the products you love and hate. The site name "AlternativeTo" is a reminder of the old Web 1.0 phrase "Alt Text", (short for "alternative to"). That was a site where people could post suggestions for replacing a particular product. Story highlights Hillary Clinton said she's using her time on the campaign trail to talk about jobs and the economy She shared the stage with Jeb Bush and businessman Donald Trump (CNN) Hillary Clinton's campaign is hoping she can help ease the sting of a flubbed answer about Bernie Sanders that has dogged her since New Hampshire's primary. On Monday in Cedar Rapids, Iowa, the former secretary of state told an audience about her experience growing up in a working-class home. "Well, there isn't much working-class anymore; it's all middle class now, but that's fine with me," she said to the crowd's applause. "I think it's important for us to remember that -- the conditions, the challenges that we faced, those conditions aren't likely to reappear in our lifetimes, and so it's important for us to be clear about what we are aiming for and where we came from. And one of the things I have talked about in all of my public appearances is the importance of increasing people's expectations of the economy, not just leaving them with their fingers to their noses, as Barack Obama has, but giving them something to be hopeful about. Because I don't think that any of us could survive if our expectations turned out to be wrong." But it wasn't just her error that has come under fire in recent days. Other moments on the campaign trail have seen her calling herself a "devastated" mother of young girls, or referring to Secretary of State John Kerry as "Senator Kerry."

Read MoreThe impacts of commercialization on participatory research in Ethiopia. As part of a broader study to understand the impact of global and local initiatives to increase research and development (R&D) expenditures and outputs in countries such as Ethiopia, this paper focuses on the results of the collaboration between the national science council and the development research foundation of Ethiopia between 2003 and 2005. This study is part of a larger research programme on knowledge transfer, which started in 1988. The research was funded by a generous grant from the

Rockefeller Foundation. The study aimed to understand how government, industry, and academia could
