In bringing before the public the Patent Everlasting Inkstand, we desire to draw attention to the fact that by simply pouring clear water into the Inkstand you obtain Ink of a superior quality, in either Jet Black or Violet, in five minutes.

The Inkstand is made on the pneumatic principle, by which a constant fresh and clear supply of Ink is always at command merely by a gentle pressure on the cork, and is as easily returned to the reservoir by slightly withdrawing the cork.

The Patent Everlasting Inkstand is particularly suitable for Travellers, as no damage can arise to the articles with which it is packed.

On the point of economy these Inkstands surpass all others, as a constant supply of Ink may be obtained for years simply by the addition of water.

Extra Supplies for these Inkstands, Black or Violet, 4s. per Dozen.
